

Case Study D

Client: Manor West Retail Park, Tralee, Co. Kerry.

Project: The installation of a new CCTV system.

Requirements: Design and project manage the installation of a new CCTV system.

Manor West is an extensive Retail Park located in Tralee, Co. Kerry. The Retail Park consists retail units based around a central Plaza building. In 2016 Retail Park Management engaged J&N Security Consultants Ltd to design a high end CCTV solution.

J&N Security Consultants worked closely with Retail Park Management to identify the operational requirements for the system and designed a system to meet the bespoke needs of the Retail Park.

The system installed at Manor West is fully scalable, which will allow Retail Park Management to add to the system into the future to meet the expanding needs of the Retail Park.

The system consisting of 46 CCTV cameras, both indoor and outdoor, was installed and became fully operational in 2017.

The key to the successful implementation of this system was down to the project planning that was undertaken. J&N worked closely with the Retail Park Manager and identified the operational requirements for the system and arising from this a bespoke security solution was designed by our team.
